

Message posted to the Tri-Party Agreement listserv February 3, 2006

This is a message from the U.S. Department of Energy

The U.S. Department of Energy (DOE) announced in the Federal Register February 2, 2006 its intent to prepare the *Tank Closure and Waste Management Environmental Impact Statement for the Hanford Site, Richland, Washington* (TC & WM EIS).

In addition to the analysis of alternatives that is currently being conducted for the preparation of the *EIS for Retrieval, Treatment and Disposal of Tank Waste and Closure of the Single-Shell Tanks at the Hanford Site, Richland, Washington* (TC EIS), the TC & WM EIS will also address concerns regarding the analyses of Hanford's solid waste management operations conducted for the *Final Hanford Site Solid (Radioactive and Hazardous) Waste Program EIS, Richland, Washington* (HSW EIS). These concerns were the subject of a recent Settlement Agreement among DOE, the Washington State Department of Ecology (Ecology), and the State of Washington Attorney General's office.

To implement the Settlement Agreement, the TC & WM EIS will provide a single, integrated analysis of groundwater at Hanford for all waste types addressed in the HSW EIS and the TC EIS. In order to provide an integrated presentation of currently foreseeable activities related to waste management and cleanup at Hanford, DOE plans to include the ongoing *Fast Flux Test Facility Decommissioning EIS* (FFTF EIS) in the scope of the new TC & WM EIS.
